Dear UYVDC Families and Staff,

Re: Updated statement on the renovation

We wanted to further update everyone on the renovation plans for our building. You may recall from the previous letters the Board sent on March 15 and July 21, 2021, the City of Toronto (which owns the land and building where UYVDC operates) has decided to renovate the building and make significant improvements to it. This is long overdue as the building is quite old.

In our most recent discussions with the City, they have indicated that construction is targeted to start in the Summer of 2022. Note that previously the City was targeting Spring 2022.

Please be advised that the UYVDC Board of Directors and Management are actively reviewing several options for how we navigate through this renovation period, with the goal of providing a continuation of childcare services.

We will continue to provide further updates in the months ahead, and as we receive further details from the City. As we noted in our previous letters on this topic, the City has committed to providing at least 90 days notice for the renovation work. Until that time, we will maintain business as usual at our current location.

Sincerely,

UYVDC Board of Directors
