UYVDC Annual General Meeting (AGM)

Date: July 21, 2021

Dear UYVDC Families and Staff,

Re: Updated Statement on the renovation

We wanted to update everyone on the renovation plans for our building. You may recall from the letter sent out from the Board on March 15, 2021, the City of Toronto (which owns the land and building where Upper Yonge operates) has decided to renovate the building and make significant improvements to it. This is long overdue as the building is quite old.

City contacts had originally told us that the renovations would start later on in 2021. In our most recent discussions with the City, they have indicated that construction is targeted to start in the Spring of 2022. Until this time, we plan to maintain business as usual.

Please be advised that the UYVDC Board and Management are actively reviewing several options for how we navigate through this renovation period, with a goal of providing a continuation of childcare services.

We plan to update you again in October, via email, and as we receive further details from the City. As we noted in our previous letter on this topic, the City has committed to providing at least 90 days notice for the renovation work.

Sincerely,

UYVDC Board of Directors
